The intellectual property contained within the papers published here in rests with the authors of said papers. Permission has been granted by said authors for the inclusion of their papers within these proceedings. Some papers presented at the conference are included within a special edition of the journal Materials at High Temperature. In agreement with the Chief Editor of Materials at High Temperature those papers published in the special edition are not replicated in full in these proceedings, but the abstract is replicated with reference given to the full paper in the special edition.

The UK High Temperature Power Plant Forum, a working group of the High Temperature Mechanical Testing Committee and represents the UK partners to the ECCC, were responsible for the organisation of the conference and the publication of these proceedings. Copies of the proceedings are available for purchase from the ECCC website <https://www.eccc-creep.com/>
